

# Personal Space

school

community

home

I can respect people at school, home and in

the community by giving them personal space.

Personal space is an invisible circle around

each person.

This is my space to move my body without

touching others.

My friends, my family and teachers all have

personal space too!

I can use my arm to make sure I am giving

enough personal space.

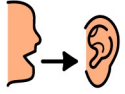

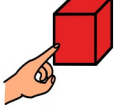

shake hands

share

help

           
If people say it is ok , I can enter their

          
personal space to shake hands, share or help them.

yes / no ?

I always have to ask BEFORE entering people's

personal space.

Ask me

Others can enter my personal space to shake my

hand, share with me or help me if I say it

is okay first.

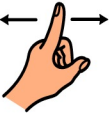

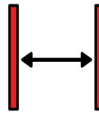

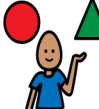

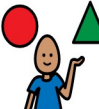

I can respect personal space with my voice. I can

use a quiet or soft voice when I am inside.

 If  I  don't respect personal space  by   

 touching,  kicking,  pushing  or yelling,  people may  feel  sad  or  angry.

When I respect personal space with my voice and

body, people may feel happy!
